

CHINA AIRLINES

COVID19- BORDER QUARANTINE

Effective Date: 15th JAN. 2021

Dear Industry Partners,

China Airlines wishes to make you aware of the Border Quarantine measures being put into place by Taiwan's Centre for Disease Control w.e.f. 01JAN21 & 15JAN21. Kindly refer to the below information:

Subject: **Entry restrictions and quarantine measures for non-Taiwanese Nationals**

The CECC stated that in consideration of the status of the COVID-19 pandemic globally, Taiwan would impose entry restrictions and quarantine regulations for non-R.O.C. nationals, effective from 00:00 am (local time at the airport of departure) on January 1, 2021, and Taiwan would strengthen quarantine measures for travellers coming to Taiwan, effective from 00:00 am on January 15, 2021.

Details about entry restrictions and quarantine regulations for non-R.O.C. nationals are listed below:

A. Non-R.O.C. nationals may enter Taiwan if they meet the following conditions:

1. Foreign nationals: foreign nationals may enter Taiwan if they hold an Alien Resident Certificate (ARC); for diplomatic or official business; to fulfil contractual obligations; for special humanitarian reasons; when they are the spouse or the underage child of an R.O.C. national; or when they obtain other special permission.

2. Hong Kong and Macao residents: Hong Kong and Macao residents may enter Taiwan if they hold an ARC; to fulfil contractual obligations; as part of internal transfers within multinational enterprises; when they are the spouse or the underage child of an R.O.C. national; or when they obtain permission under special programs.

3. People from Mainland China: people from Mainland China may enter Taiwan if they hold an ARC; when they are the spouse or the underage child of an R.O.C. national; or when they obtain permission under special programs.

B. Travelers transiting through Taiwan are temporarily prohibited.

C. Short-term business travellers eligible for shortened quarantine periods in Taiwan, except for those who have obtained permission for their application, are now required to complete the 14-day home quarantine.

D. Suspending acceptance of entry applications for international medical care purpose. Special cases or emergency medical care cases are not subject to this rule.

The CECC also stated that it would tighten home quarantine measures for travellers entering Taiwan starting from January 15, 2021. Apart from the original requirement of providing a COVID-19 RT-PCR test report issued within three days of boarding, arriving travellers shall also provide proof of the place of quarantine where travellers stay to undergo quarantine (in principle, the place shall be a group quarantine facility or quarantine hotel; those who choose to undergo quarantine at home shall make an affidavit to declare they have met the requirement of one person per residence). Entry quarantine measures will be adjusted on a rolling basis depending on the status of the pandemic and implementation of those measures.
